STANDBY CHARGE PROGRAM

RESOLUTION OF INTENT, DRAFT ENGINEER'S REPORT, AND NEGATIVE DECLARATION

SUMMARY:

The Board has imposed a Standby Charge on all parcels within the District's service area since 1991 to help recover the cost of drought-proofing. This assessment is consistent with obligations the Board agreed to within the Official Statements offering to sell "Certificates of Participation" and revenue bonds for the District's Capital Improvement Program. The Resolution of Intent initiates the procedure to continue the Standby Charge as required in the Water Code Section 71630.

Also, attached for your reference is the draft Engineer's Report describing the District's Capital Improvement Program, which the Standby Charge revenues will be used to finance. Enclosed is an environmental checklist and Negative Declaration (ND) that addresses environmental consequences of implementing the Standby Charge under the California Environmental Quality Act. The comment period for public review ends December 20, 2004. No comments have been received to date. Upon certification of the ND by the Board, the ND will be submitted to the Los Angeles County Clerk's office.

FISCAL IMPACTS:

The Standby Charge Program generates annual revenues of approximately \$3.2 million that is used to meet the District's debt service obligations.

ENVIRONMENTAL COMPLIANCE:

This Program does not have a negative environmental impact.
