**INFORMATION CALENDAR**

**SOUTHEAST WATER RELIABILITY PROJECT OUTREACH UPDATE**

**SUMMARY:**

In the month of October, outreach for the Southeast Water Reliability Project (SWRP) will be centered on canvassing residents and businesses along the alignment in unincorporated areas of Los Angeles County, providing information about the potholing activity that continues to be conducted by the design team.

Additionally, outreach staff worked with the project design team to draft a letter of interest that was sent to 15 property owners, informing them of the District's interest in obtaining easements to use their property for temporary storage/lay down areas when construction begins next year. The outreach team is monitoring any questions/concerns and general response from the letter recipients.

In these early months of the project design, SWRP outreach consultants DSO/Murakawa continue to manage the project hotline and prepare for the full-scale outreach effort that will begin in the months leading up to the groundbreaking.

**FISCAL IMPACTS:**

None.

**ENVIRONMENTAL COMPLIANCE:**

None.

**COMMITTEE STATUS:**

This item was reviewed by the Communications Committee on October 5, 2006 and was agendaized to the October 24, 2006 Board meeting as information for discussion.
