INFORMATION CALENDAR

SOUTHEAST WATER RELIABILITY PROJECT OUTREACH UPDATE

SUMMARY:

In November, staff joined Director Vasquez at a meeting with the City of Montebello to discuss the regional benefits of the Southeast Water Reliability Project and the District's proactive outreach strategy. A similar meeting is currently being coordinated with the City of Pico Rivera, per the City's request.

To assist the SWRP design team in their efforts, staff is also working with outreach consultants DSO/Murakawa to provide a database of all city and community events scheduled to occur along the alignment during project construction. This information will enable the design team to include major public events in the proposed construction schedule.

Once the pipeline design is completed, the outreach team will begin working closely with the Board of Directors to roll out the full-scale outreach plan, which will include meeting with the cities, community groups and elected officials.

FISCAL IMPACTS:

None.

ENVIRONMENTAL COMPLIANCE:

None.

COMMITTEE STATUS:

This item was reviewed by the Communications Committee on November 9, 2006 and was agendaized to the November 28, 2006 Board meeting as information for discussion.

RECOMMENDED MOTION:

This item is for information only

EXHIBITS:

None.
