

HIGH SCHOOL SCIENCE TEACHERS

Are you looking for an exciting, hands-on FREE program ?
Then come learn about the Sewer Science Program!

SEWER SCIENCE IS...

- A FREE week-long, in-class wastewater treatment laboratory program for high schools students
- A hands-on application of science with all materials, including a model treatment plant, testing equipment and student workbooks, provided.
- Correlated to California Science Content standards
- An award-winning curriculum, well-received by students and teachers
- Facilitated by scientists & engineers from the Sanitation Districts of Los Angeles County

Central Basin Municipal Water District
