

What is a High-Efficiency Toilet (HET)?

HETs are water efficient toilets that use 20% less water than traditional toilets. They use 1.3 gallons per flush, or less.

How do HETs benefit our community?

By conserving water as a community, you are helping to reduce our dependence on imported water and helping Southern California better manage its precious water supply.

How can I receive the \$150 rebate?

To qualify, you must be a water customer of a city or retail water agency within Central Basin's service area and have proof of purchase. Additionally, you must submit your request within 60 days of purchase.

Where can I get more information?

For details about the rebate program and the Supplemental Purchase Specifications (SPS) List of qualifying toilets, please visit www.centralbasin.org or call the Oldtimers Foundation at (323) 582-6090.

Getting your rebate is as easy as 1,2,3...

- 1** Purchase and install an SPS-qualified High-Efficiency Toilet (max. of 2 per home address or apartment).
- 2** Complete the form.
- 3** Mail the application and your original receipt within 60 days of purchase to:

The Oldtimers Foundation
HET Rebate Program
3355 E. Gage Ave
Huntington Park CA 90255
(323) 582-6090
(877) 732-2830 Toll Free

Only completed applications with original receipts will be processed.
