CENTRAL BASIN RECEIVES ACHIEVEMENT AWARD FOR OUTSTANDING INFORMATION TECHNOLOGY PRACTICES

Commerce, CA- Central Basin Municipal Water District has been honored with an Achievement Award by the Municipal Information Systems Association of California (MISAC), recognized for its outstanding Information Technology (IT) practices.

This prestigious award honors cities and special districts statewide for IT programs that exceed industry standards and demonstrate innovation and efficiencies in government practice.

Winning entries, which are rigorously judged by an impartial panel of IT Directors, must receive an “Outstanding” rating in six out of ten categories, including project management; budget; disaster preparation and recovery; and governance and security.

“We are very honored to receive this award,” said Central Basin Board President Robert Apodaca. “Meeting these IT standards is no easy task. It is a testament to the hard work of our staff to ensure public service and excellence in all that we do.”

Formed in 1980, MISAC is a statewide organization of approximately 150 member agencies committed to promoting professional administration of municipal information processing.

Central Basin is a public agency that wholesales imported water to cities, mutual water companies, investor-owned utilities and private companies in southeast Los Angeles County, serving a population of more than 2 million. In addition, Central Basin provides the region with recycled water for municipal, commercial and industrial uses. Formed in 1952, Central Basin is committed to ensuring a safe and reliable water supply for the region. For more information please visit www.centralbasin.org.
